Recommended 2022 Hunting Units

SUPPORTIVE INFORMATION

Due to the recent *M. ovi* pneumonia outbreak in Unit 3, both the Department and Badlands National Park recommend issuing no licenses in this unit.

Based on the strong numbers of ram bighorn sheep across all age classes, the increase to the number of licenses being proposed in Custer State Park will not negatively affect the viewability of bighorn sheep for park visitors and will provide additional hunting opportunities.

Modifying the requirement for the mandatory hunter orientation will provide better customer service to those licensed hunters.

In addition to the licenses allocated by units above, the Commission recommends the auction license to be valid in Units 2, 4, and Custer State Park.

The removal of the BHS-ZZ1 unit (preference point only option) in the application will streamline the application process for applicants and better align with business rules in GFP's new licensing system. Hunters that want to purchase a preference point can still do so when preference points are available for purchase each year, from September 15 to December 15.
